

**CLINTON COUNTY ELECTRIC COOPERATIVE, INC.
BREESE, ILLINOIS
MEMBER POLICY**

SUBJECT: MEMBER FACILITIES	POLICY NUMBER: 131
EFFECTIVE DATE: 01/01/2022	
REVISED DATE(S):	

I. OBJECTIVE

To define the facilities to be installed by the Member and the obligation and responsibility thereof.

II. POLICY

The Cooperative shall install, own and maintain all transmission and distribution facilities up to the Point of Delivery as defined by the National Electric Code. All facilities beyond the Point of Delivery are to be installed, owned and maintained by the Member. The following procedures, practices, rules and regulations shall apply:

- A. The Cooperative recommends that the member install, or cause to be installed, their facilities in compliance with the standards of the National Electric Code and with the codes and regulations of any government authority having jurisdiction. Any required inspection by any governmental agency shall be secured by the member prior to connection of electric service.

- B. The Cooperative shall have the right, but does not assume the duty, to inspect the Member's entrance equipment installation at any reasonable time and to refuse to commence or to continue service if the condition of the Member's entrance equipment fails to meet the standards of the National Electric Code. Under no circumstances shall the Cooperative be liable or responsible for any loss or damage resulting from defects in installation, wiring or equipment. If an unsafe condition is found to exist on the Member's premises, service will be refused or disconnected without notice, provided that the Cooperative will notify the Member immediately of the reasons for the refusal or disconnection of service and the corrective action needed before service can be connected or restored.

- C. The Cooperative will strive to provide a constant and uninterrupted supply of power to the Member. In the event of a service interruption or “outage” the Member should:
1. Check all fuses and breakers to verify the problem is not on the Member’s side of the Point of Delivery.
 2. If it is determined that the outage is on Cooperative’s side of the Point of Delivery, the Cooperative should be notified of the outage via phone call, text or the Smarthub app. The Cooperative employs an answering service to receive notifications after office hours, weekends and holidays.
- D. In the event Cooperative personnel are dispatched due to an outage and the outage is due to Member action or is found to be isolated to the Member’s side of the Point of Delivery, the following shall apply:
1. Member may be assessed a service charge as follows:
 - i. \$200.00 if outage occurs after hours (Monday-Friday) or Saturday
 - ii. \$300.00 if outage occurs on Sunday or holidays
 2. No repairs shall be made by Cooperative personnel responding to an outage on the Member’s side of the Point of Delivery unless life and/or property is endangered.
 3. Under no circumstances shall the Cooperative be liable or responsible for charges made by an electrician.
- E. Member safety shall be the guiding principle in the administration and enforcement of this policy.

III. RESPONSIBILITY

- A. The President/COO is responsible for the administration and enforcement of this policy.

	, Chairman	Date: November 23, 2021
